

RING SIZER TOOL

*Uncheck "SCALE TO FIT PAGE/ FIT PICTURE TO FRAME checkboxes before printing"

Intructions :

- Print and cut out ring sizer. Cut small slit that that is marked with an arrow.
- Place ring sizer comfortably around finger by slipping pointed end through the slit, numbers facing out.
- Secure the ring sizer by pulling the pointed end snugly around your finger like a belt tight but can still move it around. Be sure it's not too tight or too loose.
- Your approximate ring size Should be the number that appears where it say "Read Size".

If the finger is not available for measuring (ie a surprise gift), use a ring from the individual's current jewelry collection. Place the ring on a circle within the chart below. The correct circle size should fit right against the inside edge of the ring.

Measure your finger by wrapping a string around it. Find the length of the string that makes exactly one loop around, and use the chart below for reference.
